

Document No.:	QA/003
Title.:	List of Allergen as per EU Regulation 1223/2009
Date of issue.:	February 5 <sup>th</sup> 2019
Revision no.:	03

## Scope of Document.:

The objective is to protect consumers that are subject to allergies by providing enough information at the time of purchase of the product. The consumer should know right away if the cosmetic does contain allergens in order to avoid intolerance symptoms. The information should be clear and easily accessible to the consumer and to the medical profession. Labeling must be used (mandatory requirements), but some dematerialized digital means should also be used, i.e. providing allergen information to client or consumer.

## Purpose.:

The Cosmetics Regulation 1223/2009 lists the 26 most-known allergenic substances. These substances must appear on the label of cosmetic product when present in the finished formula at certain thresholds.
